

2022-2023

Drinking Water Treatment and Distribution Certificate of Achievement

Complete the following program of study (Major C.8401.CA). Major requirements (19 units minimum).

The drinking water treatment and distribution certificate program is designed to provide skills and training to current and future water system employees. Students can learn about –treatment plant functions including pumping water, engineering systems, treatment strategies, dosing calculations and meeting state standards. The certificate also satisfies the state requirement to take the State Water Resources Quality Control Board certification exams for levels 1 through 5. Students can take basic and advanced courses and earn a certificate of achievement for the course sequence. There is another different sequence of classes for the waste water treatment certificate of achievement. Program advisories include English 125/126 and Math 201.
