

2019 - 2020

## Associate in Science Accounting

Complete the following program of study (Major #C.2010.AS). Major requirements (33.5 units minimum). Completion of this course of study prepares a student for entry level positions in bookkeeping/accounting. A student becomes conversant in business and accounting terminology enhancing their ability to work with coworkers and analyze and record business transactions in a manual or computerized accounting system. A student acquires the skills to use computer equipment and software common to many organizations for analysis, budgeting and financial statement preparation.

The Associate in Science Degree in accounting combines an in-depth understanding of accounting principles with a breadth of business knowledge. A student who completes the outlined course of study is prepared for entry-level employment in the accounting field. These students acquire skills in basic accounting, both manual and computerized. The students learn managerial, cost, and manufacturing accounting skills which, in addition to preparing accounting data, enable them to analyze and make appropriate managerial decisions. They not only develop skills to use word processing and spreadsheet applications but also to help them with oral and written communication.
