

New Mechatronics / Industrial Automation Courses

Short-term Career Tech Education (CTE) Courses

Classes
start
August 13th,
2018

Obtain the skills to work as a technician maintaining electrical, mechanical, computer and control systems:

MECH 3 Electricity and Electronics

Course number 81709,
Mon & Wed 9:00 a.m. – 12:00 p.m.
8/13/18 to 12/12/18

MECH 5 Programmable Logic Controllers

Course number 81713,
Tues & Thurs 11:30 a.m. - 2:50 p.m.
8/14/18 to 12/13/18

MECH 4 Electric Motors - Controls

Course number 81712,
Mon & Wed 2:00 p.m. - 4:45 p.m.
8/13/18 to 12/12/18

**Mechatronics classes are listed under the
“Herndon Campus” class offerings in Web Advisor**

All classes are offered at the Herndon Campus (near Herndon and Peach Avenues)

Learn to:

- Design, operate and maintain industrial automation systems.

Be prepared to:

- Work for local industries that utilize these technologies, such as food production, petroleum production, fabrication, and logistics.

Key concepts include:

- Application of electronics and computer technology to industrial automation systems, including instrumentation and control, industrial robotics, and process control systems.

Significant emphasis is placed on project-based learning facilitated by laboratory work.
