Obtain the skills to work as a technician maintaining electrical, mechanical, computer and control systems. The following courses are offered for Fall 2019. Please check the website for full list of Mechatronics courses.

MECH 2 Mechanical Systems  
Mon. & Wed. 1:15 p.m. - 4:45 p.m.

MECH 5 Programmable Logic Controllers  
Tues. & Thurs. 3:30 p.m. - 8:00 p.m.

MECH 23 Instrumentation and Process Control  
Tues. & Thurs. 12:30 p.m. - 2:45 p.m.

MECH 23 Instrumentation and Process Control  
Tues. & Thurs. 12:30 p.m. - 2:45 p.m.

MECH 19 Work Experience

NOTE: This is a 14 week course starting February 11th

Mechatronics classes are listed under the “Herndon Campus” class offerings in Web Advisor

All classes are offered at the Herndon Campus (near Herndon and Peach Avenues)

Learn to:
• Design, operate and maintain industrial automation systems.

Be prepared to:
• Work for local industries that utilize these technologies, such as food production, petroleum production, fabrication, and logistics.

Key concepts include:
• Application of electronics and computer technology to industrial automation systems, including instrumentation and control, industrial robotics, and process control systems.

Significant emphasis is placed on project-based learning facilitated by laboratory work.
