PARTNERSHIP WITH BRIDGEGOOD PROVIDES VARIOUS OPPORTUNITIES FOR ART STUDENTS

The collaboration with Bridgegood, part of the non-profit Oakland Digital Arts & Literacy Center, has introduced art students to creative technology based employment and helped students make connections in the tech industry. On April 5, seven art students met with four BRIDGEGOOD designers for an afternoon of brainstorming and design development for the Inspire Oakland competition. Bridgegood provided one-on-one and peer-to-peer design help from winners of previous Inspire Oakland campaigns. Through their participation, the art students also earned a badge on their online portfolios that allows them to apply for design jobs through the Bridgegood app and can be seen by businesses looking for designers. All seven art students plan on submitting their designs to the Inspire Oakland competition. We wish them the best of luck!
