Ethics Statement

Fall 2023

(Page 4 of 2023-2024 catalog)

Revision: Adding an Ethics Statement to the catalog.

The principles and values of the Clovis Community College Code of Ethics and Excellence guide the faculty, students, and staff in the achievement of a profound appreciation of and respect for the dignity and worth of each member of our community of learners in responding to the trust conferred on the college by the public. We are guided by the standards and principles established by our respective professional associations and organizations in our effort to create an ethical community college.

Fairness: In our relationships with each other, we will be fair and just in our decisions and actions by carefully weighing the circumstances in an equitable manner.

Civility: We adhere to standard conventions of civility and regard of others. We achieve an open working and learning environment when each community member feels secure enough to participate in the free exchange of ideas. We ensure an honest and supportive climate which serves the interests of the institution and protects the well-being of all individuals.

Integrity: In order to support excellence in learning, we will act in the college's best interest. As a community dedicated to providing education, we demonstrate professional integrity and exemplary behavior in all that we do.

Respect: We demonstrate a high regard for the rights, diverse opinions, and life styles of all community members. It is our responsibility to establish a climate of mutual respect to protect the rights and freedoms of others.

Trust: The development of trust relies on our ability to treat others equitably in a non-exploitive manner.

Adapted from Humber College Ethics Statement.

Revisions to Student Fees – Parking Fee*

Fall 2023

(Page 18 of 2023-2024 catalog)

Revision: Parking Fee language updated.

Students and employees who choose to use an approved on-campus parking area must purchase a district parking permit. The permit must be displayed in the vehicle and must be visible at all times. Fall and spring permits are \$30 per semester. Summer session permits are \$20. Daily permits are \$1. Parking permits may be purchased online using a credit card at www.mycampuspermit.com. Cash purchases can be made at the Admissions and Records Office (AC2-130). For cash transactions you will then be given a promo code that will allow you to order your permit online. Please visit cloviscollege.edu/parking for more information about parking permits. Copies of campus parking regulations are available at the Campus Police Department or on their website at scccdpolice.com. Students requiring handicap parking should contact the Disabled Students Programs and Services Office.

Revisions to Certificate & Degree Requirements – Catalog Rights

Fall 2023

(Page 46 of 2023-2024 catalog)

Revision: Catalog Rights language updated.

For the purpose of this section, continuous enrollment is defined as enrollment in at least one primary term (fall or spring) in an academic year. Students will retain catalog rights as long as they maintain continuous enrollment by not missing two consecutive primary terms. Any of the following academic records are evidence of enrollment during a semester: A, B, C, D, F, P, NP, CR, NC, Y, N, X, I, IP, RD, W, EW, and MW.

A student may elect to meet the requirements for an academic program through one of the following:

1. The catalog in effect at the time the student began continuous enrollment.
2. In the event of a major/program change, any student may assume new catalog rights under the following conditions:
 - The change of major/program must be approved by a counselor, and
 - The major selected must be within a catalog during the student's continuous enrollment.
3. The catalog in effect at the time of the student's program completion.
4. A service member who has received a military leave of absence will be readmitted with the same academic status as when the student last attended the college. The student would maintain catalog rights to specific degree and General Education requirements and remain eligible for continuing student priority registration upon returning to enroll in courses.
 - A student's readmission rights terminate in the case of a dishonorable or bad conduct discharge, general court-martial, federal or state prison sentence, or other reasons as described in 34 CFR 668.18 (c)(h).
5. Students who enter in summer will be assigned catalog rights for the immediately following fall catalog or can elect to assume the catalog rights in effect at the time of their enrollment.

Special Note:

Students pursuing an Associate Degree for Transfer (ADT) or planning to transfer to a four-year institution are advised to review that institution's catalog for "rights" accorded to community college transfers.

AMERICAN SIGN LANGUAGE

AMERICAN SIGN LANGUAGE

(MAJOR #C.5505.AA)

ASSOCIATE IN ARTS DEGREE

Program Learning Outcomes:

1. Formulate and understand grammatically correct and culturally appropriate American Sign Language concepts in spontaneous conversational settings.
2. Synthesize aspects of American Sign Language syntax, pragmatics, and semantics to analyze and formulate a variety of sentences structures and communicate clearly and accurately in ASL.
3. Comprehend and implement appropriate cultural and linguistic practices based on the knowledge of preferences of the Deaf and Hard of Hearing community.

Catalog Description:

By completing this degree, students will be prepared to enter the workforce in a field that requires interaction and networking with Deaf and Hard of Hearing individuals. The degree provides in-depth instruction in American Sign Language and exposes students to the linguistic aspects of the language as well as the many aspects of Deaf culture. Students who complete the degree will acquire the skills to serve as culturally sensitive, linguistically competent allies for Deaf and Hard of Hearing individuals and find employment in a wide variety of settings that require an understanding of Deaf culture and language. Among the possible employment, options are jobs as paraeducators and interpreting assistants in Deaf and Hard of Hearing classrooms, as well as various positions in organizations serving the Deaf and Hard of hearing. It is the purpose of this degree for students to prepare for the American Sign Language proficiency interview, a test for conversational proficiency in the language.

(Pages 135-164 of 2023-2024 catalog)

AGRICULTURE PLANT SCIENCE

ASSOCIATE IN SCIENCE IN AGRICULTURE PLANT SCIENCE FOR TRANSFER DEGREE

(MAJOR #C.6103.AS-T)

Program Learning Outcomes:

A student who successfully completes the Associate in Science in Agricultural Plant Science for Transfer Degree will be able to:

1. Transfer to a 4-year university to pursue a bachelor's degree in plant science or a related field.
2. Identify plant structures and their functions, and describe the major physiological processes of plants.
3. Integrate their knowledge of plant and soil science to grow healthy plants, identify and correct common plant growth issues, and describe the impacts of plant/crop production on the environment.

Catalog Description

The Associate in Science in Agricultural Plant Science for Transfer Degree prepares students to transfer to a 4-year university to pursue a bachelor's degree in plant science or other closely related fields. After completing the program, students will have a thorough understanding of plant anatomy and physiology, soil science, techniques used to cultivate plants, identification of common plant and soil issues, and the environmental impacts of plant/crop production.

To obtain this transfer degree, students must complete the following requirements (pursuant to SB1440 §66746 and CCR, title 5, §55063):

- Completion of 60 semester units or 90 quarter units of degree-applicable courses,
- Minimum overall grade point average of 2.0,
- Minimum grade of "C" (or "P") for each course in the major, and
- Completion of IGETC and/or CSU GE-Breadth.

NUTRITION AND DIETETICS

ASSOCIATE IN SCIENCE IN NUTRITION AND DIETETICS FOR TRANSFER DEGREE

(MAJOR #C.5683.AS-T)

Program Learning Outcomes:

A student who successfully completes the Associate in Science in Nutrition and Dietetics for Transfer Degree will be able to:

1. Demonstrate knowledge of the relationship of nutrients and lifestyle factors and the associated risk of chronic disease.
2. Demonstrate knowledge of physiological processes such as digestion, absorption, transport and metabolism of nutrients.
3. Identify essential nutrients and describe their chemical structures and food sources.
4. Recognize and separate scientifically supported information from misinformation
5. Identify ways in which social factors influence food related choices, practices and beliefs.

Catalog Description

The Associate in Science in Nutrition and Dietetics for Transfer Degree provides education in nutrition science and the relationship of the human diet to health and lifestyle-related diseases. The Associate in Science in Nutrition and Dietetics

Degree prepares students for transfer into the CSU system to complete a baccalaureate degree in nutrition and dietetics. This major provides the opportunity for students to begin their career path in the field of nutrition and dietetics, with a wide variety of career possibilities in nutrition, medicine, clinical settings, public health and/or other allied health sciences.

Students may pursue further education and training to become registered dietitians (RD) or registered dietitian nutritionists (RDN). To earn certification as an RD or RDN, specific education and training requirements must be met, as established by the Accreditation Council for Education in Nutrition and Dietetics. Requirements include successful completion of a bachelor's degree, an accredited nutrition curriculum, an extensive supervised program of practice at a healthcare facility or food service organization or community agency, and passing a rigorous registration exam. RD and RDNs have opportunities to work in medical facilities, research labs, healthcare agencies, food service industry, pharmaceutical companies, and many other areas involving nutrition education, counseling, and management.

To obtain this transfer degree, students must complete the following requirements (pursuant to SB1440 §66746 and CCR, title 5, §55063):

- Completion of 60 semester units or 90 quarter units of degree-applicable courses,

SOCIAL WORK AND HUMAN SERVICES

ASSOCIATE IN ARTS IN SOCIAL WORK AND HUMAN SERVICES FOR TRANSFER DEGREE

(MAJOR #C.7701.AA-T)

Program Learning Outcomes:

A student who successfully completes the Associate in Social Work and Human Services for Transfer Degree will be able to:

1. Discuss the values, theories and principles of social work and human services to describe how they may guide fieldwork experience and future employment.
2. Employ ethical principles of the field of social work and human services to guide fieldwork experience and future professional practice.
3. Demonstrate a conceptual and practical understanding of system concepts, theories, and techniques that are foundational to the practice of human/social services.

Catalog Description

The Associate in Arts in Social Work and Human Services for Transfer Degree is intended for students who plan to transfer and complete a Bachelor's degree in Social Work and Human Services, or a major deemed similar by a CSU campus. Each CSU campus determines which of the degrees it offers are "similar" and can be completed with the preparation included in the Associate in Arts in Social Work and Human Services for

Transfer Degree within 60 units once a student transfers, so which majors are “similar” varies from CSU to CSU. For a current list of what majors (and what options or areas of emphasis within that major) have been designated as “similar” to this degree at each CSU campus, please refer to the CSU's Associate Degree for Transfer Major and Campus Search website and seek guidance from a Clovis Community College counselor. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major.

To obtain this transfer degree, students must complete the following requirements (pursuant to SB1440 §66746 and CCR, title 5, §55063):

- Completion of 60 semester units or 90 quarter units of degree-applicable courses,
- Minimum overall grade point average of 2.0,

BIOLOGY (BIOL)

7 FIELD BIOLOGY

5 units, 3 lecture hours, 6 lab hours.

ADVISORY: Eligibility for English 1A or English 1AH.

A field course covering the natural history, ecology, and taxonomy of local plants, animals, and fungi. The course will include required weekly field trips to local areas with abundant plants and wildlife – field trips will include moderate hiking. Students will learn how to identify local plant and animal species, gain expertise in the ecology of the local environment, and will learn about environmental issues related to habitat loss/degradation, agriculture, invasive species, and other human impacts. (A, CSU, UC)

HUMAN SERVICES (HS)

9 SOCIAL WORK AND HUMAN SERVICES SEMINAR

1 unit, 1 lecture hour. (Pass/No Pass)

PREQUISITES: Human Services 20 and Human Services 24.

COREQUISITE: Human Services 19F. ADVISORY: Eligibility for English 1A or English 1AH.

This course provides the student who is participating in their supervised field experience directly related to Social Work and Human Services with a weekly class meeting that provides the academic element to the experiential course offering. The goal for this course is to provide the student with an opportunity to develop skills that would facilitate gaining employment in the field by learning interpersonal, problem solving, and communication skills; office dynamics and adapting to change; group interaction; and collaborative learning activities. (A, CSU)

19F SOCIAL WORK AND HUMAN SERVICES FIELDWORK

2 units, 6 lab hours. (Pass/No Pass)

PREQUISITES: Human Services 20 and Human Services 24.

COREQUISITE: Human Services 9.

This course is the supervised field experience portion of human services. Students will be working in the field allowing the student to apply knowledge and learn new skills outside of the classroom environment. This course is designed to provide the student with an opportunity to serve, practice, and develop skills that would facilitate gaining employment in the human services field. (A, CSU)

20 INTRODUCTION TO SOCIAL WELFARE

3 units, 3 lecture hours.

ADVISORY: Eligibility for English 1A or English 1AH.

This course is an introductory overview of social welfare and the societal institutions in the U.S. that structure the provision of social services. The course presents a historical perspective on the development of U.S. social work and human services. Special attention is given to current service delivery systems, their policies and procedures, and the tasks of culturally responsive social workers and human service workers within those settings. (A, CSU, UC)

Intermediate level digital photography course in image creation and processing and asset management for fine art and professional photography. Course utilizes industry standard software, such as Adobe Photoshop, Adobe Lightroom, and other pertinent programs. Course emphasizes use of professional imaging equipment and creation of coherent body of photographic work at an intermediate level. Exploration of narrative content development and formal visual communication through creation of work and group critique of work. (A, CSU, UC)

PLANT SCIENCE (PLS)

1 INTRODUCTION TO PLANT SCIENCE

3 units, 3 lecture hours.

ADVISORY: Eligibility for English 1A or English 1AH.

In this introductory course, students study plants, plant habitats and ecosystems, plant growth, and the use of plants in agriculture. Topics include plant anatomy, physiology, cellular biology, metabolic processes, nutrient and mineral requirements, plant identification and taxonomy, and ecology. (A, CSU, UC)

1L PLANT SCIENCE LAB

1 units, 3 lab hours.

COREQUISITE: Plant Science 1. **ADVISORY:** Eligibility for English 1A or English 1AH.

This course is the lab component of Introduction to Plant Science and covers plant identification, taxonomy, anatomy, cell biology, physiology, growth, soil, nutrients, and cultivation practices. (A, CSU, UC)

2 SOILS

3 units, 3 lecture hours.

ADVISORY: Eligibility for English 1A or English 1AH.

This course is an introductory course to soil science focused on the biological, chemical, and physical properties of soils, including the relationships of soils with plant growth, agriculture, and the environment. Topics covered in this course include soil formation, chemical and physical properties of soil, soil taxonomy/classification, nutrients and fertility, erosion, plant growth, survey techniques, and the environment. (A, CSU, UC)

2L SOILS LAB

1 units, 3 lab hours.

COREQUISITE: Plant Science 2. **ADVISORY:** Eligibility for English 1A or English 1AH.

This is the laboratory course associated with the lecture course PLS 2: Soils. This course will cover the physical, chemical, and biological properties of soils, with an emphasis on the relationship between soil properties, plant growth, and the environment. Students will learn how to determine soil texture/type, salinity, pH, nutrient concentrations, and water-related properties. Additionally, students will learn how to conduct a soil survey, determine the quality of soil, and manipulate soil to improve plant growth. (A, CSU, UC)
